

Curriculum Vitae

Name: Kang Taek Lim, MD.

President of Good Doctor Teun Teun Spine Hospital

Executive Director of IHTSS, International High Tech. Spine Surgery.

Director of KOMISS(Korea Minimally Invasive Spine Surgery)

Director of IITS(International Intradiscal Therapy Society).

Organizing committee of International High-Tech Spine Surgery Symposium 2014 Seoul

Director of ACMISST, Asian Congress of Minimally Invasive Spine Surgery and Techniques,

Consultant physicians of Myelotec,USA

Consultant Physician of Maxmorespine, Germany.

Member of AO spine, NASS, CNS.

Review Board of JMISST, Journal of Minimally Invasive Spine Surgery and Technique.

Review Board of AJP, Asian Journal of Pain.

Review Board of Asian Spine Journal.

International Board of our esteemed journal JOSS (Journal of Spinal Surgery), official journal of NSSA (Neuro Spinal Surgeons Association, India).

Cell, +82-10-8933-5745

1. Birth date, 05/AUG, 1965.,

2. Education

Mar. 1986~Feb. 1992 M.D., Medical school, GyeongSang National University.

Jinju Korea

Postgraduate Training

Feb. 1992-Feb. 1993 Internship

Mar.1996-Feb.2000: Residency

Department of Neurosurgery

Hallym Medical Center, Seoul, Korea

Positions Held & Faculty Appointment

May 1993~Apr.1993

General physician in the public medical Hospital.

Feb. 2000 -Aug. 2002 : Faculty

Department of Neurosurgery

Seoul General Hospital, Korea

May. 2003 -Oct, 2006

Assistant Faculty of Hallym medical center,
HaNa General Hospital CheongJu, Korea

Oct. 2006-Oct. 2007

Visiting Scholar of Miller school of Medicine,
University of Miami, Florida. USA.

Oct. 2007-Dec. 2008

HaNa General Hospital Cheong Ju, Korea

Jan. 2009-2013

Clinical Faculty of Hallym Medical school
Director of Institute of Spine, CheonAn Woori Hospital

2014,

Director of Institute of Spine, Teun Teun spine Hospital. Seoul Korea.
Consultant Doctor of Accu Tech. Beijing, China.
2014-2015, Vice president of Gimpo Wooridul Spine hospital.

.Certifications

Feb 1992 Korean Medical License

Feb 2000 Neurosurgeon

.Activities

.May 2004 NASS(North American spine Society) workshop

."Minimally invasive Spine Techniques" in St. Louis. 2004

.Member of NASS.

.2009, Live surgery of Spinal cord stimulation. Experience of complications after SCS

.Member of CNS.

.Member of AO spine.

.Spine Related Paper and Presentation

1. SI(Spiral-Lead) Tube For Kyphoplasty

-Korea Neurosurgical Society

2. The Effectiveness of Allobone Grafting for Osteoporotic Vertebral Compression Fractures.

-Asia Spine Meeting

3. Transplantation of Autologous Schwann Cells within A NeuraGen® Tube to Repair A Lengthy Gap of the Sciatic Nerve

-AANS 2007NewYork USA

4.Spinal subdural hematoma.

-Korea Neurosurgical Society

5. Minimally invasive TLIF and percutaneous screw fixation

-Asia Spine meeting Fukuoka, Japan.

6. A Experience of DLIF (Direct Lateral Interbody fusion) of lumbar spine using Human Cadaver Dissection

-2010 Asia Spine meeting

7.Comparative analysis of clinical outcomes in lumbar disc herniation using Epiduroscopic Laser decompression and Mechanical Neurolysis.

-2012 Asia Apine, Kaoshiung, Taiwan.

8. Anterior lumbar interbody fusion in comparison

with posterior lumbar interbody fusion :

Restoration of lumbar lordosis, disc height and clinical outcomes

-Korea Neurosurgical Society.2012

**9.The Effectiveness of Epiduroscopic Disc and Nueral Decompression
by using Ho:YAG Laser for lumbar disc herniation.**

-Korea Neurosurgical Society.2012

**10. Comparative analysis of clinical outcomes in lumbar disc herniation
using Epiduroscopic Laser decompression and Mechanical Neurolysis.**

-2012 Korean Minimal Invasive Spine Surgery Society-presentation, live
surgery, Cadaver work shop.

**11. Comparison of Spinal Stability Interspinous fixation, fusion
system(SPIER) and**

Pedicle screw fixation in TLIF cases.

-Asia Spine meeting Shanghai China,2012

**12. Restoration of Segmental Lumbar Lordosis after Lumbar Interbody
Fusion with Stand-alone Cage.**

-CNS, Washington DC. USA.2012

13. Lumbar Disc Decompression using Laser Epiduroscopically

-2012 international KOMISS presentation, live surgery, Cadaver work shop.

**14. An Evidence Based Approach to Epiduroscopic Laser Decompression in
Lumbar Disc Herniation**

-ISMIS 2013, Turkey

15 Lumbar Disc Decompression using Laser Epiduroscopically

_ISMIS 2013, Japan.

**16. ISASS Miami fl. USA. 2014. May. An Evidence Based Approach
to Epiduroscopic Laser Decompression in Lumbar Disc Herniation**

**17. WCMISST Paris 2014, Jun. Trans Sacral Epiduroscopic Laser
Decompression in Lumbar Disc Herniation**

18.

Trans-Sacral Epiduroscopic Laser Decompression for Symptomatic Lumbar Disc Herniation: A Preliminary Case Series
